DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claim 1,3,5-15,18-27,29,30-37 have been considered but are moot in view of the new grounds of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1,3,5-15,18-27,29,30-37 are rejected under 35 U.S.C. 102(e) as being anticipated by Gross et al. (Gross), U.S. Patent Application Publication No. 2004/0143569, previously cited.

Regarding claims 1,3,5-15,18-27,29,30-37, Gross discloses a communications system comprising: a mobile device having a mail user agent (reads on reception side mail server); and a mobile office platform operative with the mail user agent for accessing one or more electronic mailboxes of the mail user agent using at least one protocol specific connector, said mobile office platform operative for providing only the n-most recent mail headers of electronic messages to the mail user agent in at least one of a default order of mail headers (including a unique identifier, e.g., and including a mail reception part, an address comparing part, a flag attachment part
